ANCHOR AUTOMOTIVE / SPRINGTOWN, TX

Repair evidence checklist

Use with a second opinion or a recurring concern. Keep confirmed findings separate from suspected causes.

Original concern

Vehicle / mileage / date

Symptom / operating conditions / frequency

Previous work

Invoice dates / work performed / available records

Finding or measurement that supported each repair

What changed after the repair / what returned and when

Current test plan

Current findings / unresolved questions

Testing scope / charge / authorization limit

Proposed repair / approval contact / written coverage

Verification

How the original concern was checked after repair

Observed result / limits / follow-up conditions
